Dear Fran Kiefert,

Many thanks for the most  
delightful issue of Proc. Kellner with New Friends  
Press! It must be a great pleasure to you  
to see his memory kept so green.

We are all well and send you our  
cordial greetings for Christmas and 1934.

With this I am sending a copy of  
a new little magazine, started by two young friends  
of ours with the view point of keeping the wolf from  
the door! We are doing our best to help to make a  
success of it.

Mabel and Gerry are now comfortably settled  
in their new cottage, which seems much more  
suitable for winter life than their old one.

Things generally seem improving in  
this country, though we are lange nicht uns-  
dem Walde (in this ~~schick-~~deutsch?). We hope it is also  
so in Austria

Yours very cordially

James F. Murhead
