

My dear parents (father's) ① 11 Envel 8/2 Jan. 27th, 40
many thanks for your ~~last~~ postcard. It is a pity mother's hand
is so bad again. It is very likely it is not alone on account
of the arthritis, as there may remain a certain stiffness after
the articulation had been fixed for week, which makes the function
of the ~~hand~~ painful. I do hope the matter will be over
soon and there will be a stop now for all kinds of
illnesses. - I am all right. - The cold is ~~at~~ less hard, I
personally didn't mind it, as I have a very warm room. -
I dared to cook the strange vegetables that are common here
"Fenchel, Chickory, Lauch" and found it very nice, especially
Fenchel. It is no work whatever to prepare. Do you know it?
Would you like seeds? - I went to the cinema to see
6 little Walt Disney trick-films. Unfortunately, most of
them were synchronised in French. Some I liked very
much - "the ugly little duck", "Farmsymphony", "Ferdinand"

the bull". He was a big enormous bull in Spain but never fought but preferred to sit under a tree and smell the scent of the flowers. You can imagine what happened when they picked him out to fight in the arena.

I was told I shall get the permission to stay on. Love Hannah
